

REVOLUTIONARY REVERSE CAMERA

Is your camera safe enough?

- Maximize your safety with an image that covers all blind spots on both rear sides of the vehicle.
- Use the best 180° camera to cover much more area than conventional rear view cameras.
- Provides a 2-in-1 display image with both horizontal rear view and bird's eye view.
- Integrates active monitoring function for detecting moving objects.

CUTTING-EDGE IMAGE PROCESSING TECHNOLOGY

180° camera provides a much wider view.
Blind spots are now visible on display.

The most practical rear view camera system for everyone!

PRACTICAL AND IDEAL

The World's Safest & Only Reverse Camera System!

The full vision camera system does not only cover your blind spot, it is also integrated with moving object detection. The unwanted potential danger will be detected and emphasized for you to show in a LCD display.
